Association for Systems Engineering - Peer Advisory Opinion

November 1, 2025

The Association for Systems Engineering is a professional peer group of 48,000 practitioners and researchers in computing systems. We have reviewed the description of Dr. Priya Raman's proposed work as Chief Technology Officer of Tessellate Labs.

In our opinion Dr. Raman is a person of extraordinary ability in distributed systems, and the proposed work requires the services of a person of extraordinary ability. We have no objection to the approval of the petition.

Signed, Dr. Helena Voss, Executive Director
